

Custodian Community

Australia's leading native title trust community management software.

Empower your community

Improve community confidence and trust with transparent, accurate, current and consistent information about fund distribution. Less admin in the office and more clarity for community members.

Quickly gather and compile member information

- ✔ Create forms, templates and checklists with customised questions.
- ✔ Enable secure document exchange via application forms.
- ✔ Capture documents and receipts with phone cameras and send through secure forms.

Streamline data entry with automated application processing and tracking

- ✔ Track all application activity including finances and communication.

Communicate clearly with members

- ✔ Automate messages and workflows for when a member completes an application form. (Get started with a large library of message templates ready for you to customise.)
- ✔ Send text messages and emails direct to members and groups.

Stay ahead of compliance reporting

- ✔ Collaborate in real-time with other advisors and community members.
- ✔ Customised to meet the needs of the community.

"We've commenced using the Custodian Community app with the Yugunga-Nya People's Trust and the uptake has been fantastic. With over 75% of community members currently actively using the app, tracking, communicating, and reporting financial activity has become so much easier for our admin team."
